

# Megazyme and Megazyme Forte

Simply the Best Proteolytic Enzymes Available in the World Today  
(And At the Best Price Too!)

More Great Things from the Enzyme Technology Leaders

Megazyme and Megazyme Forte are potent blends of vegetable and animal source proteolytic, amylolytic and lipolytic enzymes. They also contain the important free radical fighters SOD and Catalase. These formulas also contain the important enzyme activator Glutathione as well as lyophilized calf thymus and Zinc.

Megazyme and Megazyme Forte are the culmination of more than a quarter century of experience in the proteolytic enzyme field. The formulas have evolved into the most potent and effective enzyme supplements available in the world without prescription.

Megazyme Forte was the first and remains one of the few enzyme supplements to contain 45 mg of highly active  $\alpha$ -Chymotrypsin, one of the most potent and long-lived enzymes available for oral supplementation.

The key to the effectiveness of any enzyme formulation is getting the enzymes absorbed so that they can be transported to the target site and activation when they get there. Megazyme and Megazyme Forte have been specially designed by a pharmacist and a biochemist to maximize absorption and ensure the sustained systemic effect of the enzymes.

Compare our Megazyme and Megazyme Forte ingredients (see the reverse) with the enzymes you currently use. Then compare the price. We believe that you will be impressed with both. Most importantly, we believe that you will be impressed with the results you will see. Give us a try then make the switch!

Megazyme and Megazyme Forte are available in 90 tablet, 200 tablet and 400 tablet sizes.

## Megazyme Ingredient List

## Megazyme Forte Ingredient List

Supplement Facts			Supplement Facts					
Serving Size 1 tablet Servings per container: 90, 200, 400			α-Chymotrypsin	3 mg	#	α-Chymotrypsin	45 mg	#
			Rutin	100 mg	#	Rutin	100 mg	#
			Lyophilized Calf Thymus	55 mg	#	Lyophilized Calf Thymus	55 mg	#
Amount per serving			Zinc Gluconate	10 mg	#	Zinc Gluconate	10 mg	#
% Daily Value			Superoxide Dismutase	50 mcg	#	Superoxide Dismutase	50 mcg	#
			Catalase	200 Units	#	Catalase	200 Units	#
Pancreatin (4X)	313 mg*	#	L-Glutathione	10 mg	#	Pancreatin (4X)	313 mg*	#
Papain	150 mg	#	*Equivalent to 1250 mg of Pancreatin Percent Daily Values are based on a 2000 Calorie/day diet # RDI not established Tablets specially coated for duodenal absorption			Papain	150 mg	#
Bromelain	150 mg	#				Bromelain	150 mg	#
Trypsin	125 mg	#				Trypsin	125 mg	#
Lipase	50 mg	#				Lipase	50 mg	#
Amylase	50 mg	#				Amylase	50 mg	#

Both Also Contain: Enteric Coating, Dicalcium Phosphate, Croscarmellulose Sodium, Stearic Acid, Magnesium Stearate

Proteolytic enzyme therapy has, according to published reports, been used successfully in the following conditions (a small sampling):

- |                                   |  |
|-----------------------------------|--|
| ● Inflammatory Conditions         | ● Arteriosclerosis                       |
| ● Sports Injuries                 | ● Atherosclerosis                        |
| ● Sprains                         | ● Blood Clots                            |
| ● Strains                         | ● Endometriosis                          |
| ● Fractures                       | ● Dysmenorrhea                           |
| ● Soft Tissue Injuries            | ● Pancreatitis                           |
| ● Pre and Post-Surgical           | ● Neuritis                               |
| ● Burns                           | ● Nephritis                              |
| ● Slow Healing                    | ● Prostatitis                            |
| ● Arthritis                       | ● Dyspepsia                              |
| ● Viral Infections (Herpes, etc.) | ● Irritable Bowel Syndrome               |
| ● Bacterial Infections            | ● Inhibition and Reduction of Scarring   |
| ● Impaired Circulation            | ● Cataracts                              |
| ● Angina                          | ● Any Other '-osis' or '-itis' Condition |

Some of Rocky Fork Formulas' synergists for this formula are:

Bioflavonoid Complex, Cardio Complex, Cardio Complex HS, Chelaplex, Co-Enzyme Q10 (capsules or sublingual tablets), Grape Seed Extract, Green Tea Extract, Hypo Gestaid, Mega Gestaid, Pain Complex, Pancreas Complex, SOD/Lipoic Acid Complex, Virex Complex

Proteolytic enzymes aren't just an aid to digestion anymore. While Megazyme and Megazyme Forte are excellent for this purpose, they are also highly effective for systemic use against a number of stubborn and difficult to treat conditions. If these enzymes are to be used as a digestive aid the recommended dosage is 1 or 2 tablets just prior to a meal. For systemic use the dosages vary depending on the severity of the condition but tablets should be used as far from meals as possible.
